

July 10, 1939.

Mr. James Johnson,
312 Orange St.,
Albany, N. Y.

Dear Mr. Johnson:

I wrote the enclosed letter sometime ago and have evidently misplaced Mr. Bozzi's address. I would greatly appreciate you forwarding it to him for me.

I wrote Mr. McCaffery, explaining that due to the fact we had such difficulty lining up the attractions, I believe it would be better to postpone our initial appearance at Albany until a later date when we will have had sufficient time for publicity.

I have discussed with several of the Teams the probability of playing in Albany and they are all very enthusiastic. I am sure next year when we make up our schedule, we will be able to include Albany on our League schedule. Any games played this year, however, would naturally have to be inserted, most of the Clubs take steps to fill open dates as soon as the schedules are made up, so of course one runs into lots of complications in trying to get just the attractions you want on the dates when the Park is available.

I am still planning to try and bring some Team to Albany this year, but as I said before I do want to have things properly arranged when we come. Sincerely hope I have not caused you any inconvenience, and will get in touch with you immediately if anything new develops.

Thanking you very much for your kind assistance and co-operation.

Very truly yours,

AM:CCJ
